

QCL - Quality Compliance Laboratories

Dear Colleagues and Valued Clients,

Sahab Habibi is the Account Executive for QCL, a marketing enthusiast focused on Sales and Public/Client relations. In this role he leads the companies B2B marketing efforts overseeing the team's current sales and communications as well as new client prospecting and managing the relationship between Clients and Management. Our most exciting work to date was being a Health Canada GMP approved and FDA inspected (with zero observation, 3X in a row) in both our facilities as well as possessing both controlled substances and precursors licenses from Health Canada, being the only Contract Laboratory of its kind in all of Canada.

Sahab is truly passionate about his work and always eager to connect with clients and business owners of all kinds. While he enjoys all aspects of his job, his favorite stage of a project is working with the client or business unit leader to understand his or her business objectives. As we go through that collaborative process, the ideas start to flow and that's always the fun part.

QCL - Quality Compliance Laboratories remains fully committed to client satisfaction by providing timely, reliable quality analyses in a cost effective manner that meet your requirements.

With our extensive technical expertise, rigorous compliance and state-of-art facilities and instrumentation, you can be confident in choosing us as your partner of choice in Contract Analytical Testing, and Regulatory and Compliance Consulting !

We look forward to serving you in the coming years.

Best Regards,

Ronald D. Turton,
Chief Scientific Officer

Mr. Sahab Habibi
Account Executive
